Strategy and Tactical Considerations Of Hotel / Motel Fires

This course will review the potential for loss of life by the transient population that typically reside in these temporary residences. Too often those who stay in hotel and motels in resort areas are experiencing a vacation atmosphere and fire safety is the furthest thing from their mind. Yet once a fire occurs the responsibility of protecting those occupants relies on the responding firefighters. This course will review the potential problems through lecture, case studies, and activities and examine methods of developing strategy and tactics to handle these difficult fires.

Class will be held on Tuesday September 9, 2008 at the Wildwoods Convention Center, 4501 Boardwalk, from 7pm to 10pm. Registration will begin at 6:30PM. Cost will be \$20 in advance and \$25 at the door. Pay for 5 members and get the 6th one free. Any questions, contact Ernie Troiano at 609-780-0477 or Bill Cripps at 609-846-6724.
